

## Hypnosis / Therapy Fee Guide

You may be required to attend several appointments to determine if Dr Linh Doan is best suited to provide Focussed Psychological Strategies or Hypnotherapy in your situation. Please note that the Medicare Rebates for Focussed Psychological Strategies are slightly more generous than regular Medicare Rebates reducing your out-of-pocket expenses therefore you may wish to speak to your regular GP about whether a Mental Health Care Plan is suitable for you.

Please note that generally 40-60 minute appointments are required as half of the appointment will likely involve talking outside of hypnosis to find out how best to communicate with your subconscious mind.
